

UTECH[®] Products

Carbon Reduction Plan (UK)

UTECH Products Ltd

Reporting Year: 2026
Baseline Year: 2025

1. Commitment to Achieving Net Zero

UTECH Products Ltd is committed to achieving **Net Zero greenhouse gas (GHG) emissions by 2050**. This commitment applies to UTECH Products Ltd's UK operations and aligns with UK Government and NHS Net Zero policy requirements.

2. Organisational Boundary

This Carbon Reduction Plan covers **UTECH Products Ltd's UK operations only**, defined under the operational control approach of the Greenhouse Gas Protocol.

The organisational boundary includes one UK office (landlord-managed utilities), eight UK-based employees, UK business travel, employee commuting and homeworking, UK waste generation, purchased IT equipment, and UK cloud hosting and data centre services.

3. Scope Definitions

Scope 1 – Direct Emissions: Direct GHG emissions from sources owned or controlled by UTECH Products Ltd, including company-owned vehicle fuel consumption. No on-site fuel combustion or gas heating is operated.

Scope 2 – Energy Indirect Emissions: Indirect emissions from the generation of purchased electricity consumed by UTECH Products Ltd. Reported using the location-based method and UK grid average emission factors.

Scope 3 – Other Indirect Emissions: All other indirect emissions across the value chain, including business travel, employee commuting, homeworking, waste, purchased goods and services, and cloud hosting.

4. Reporting Standards and Methodology

This Carbon Reduction Plan has been prepared in accordance with PPN 006 (formerly PPN 06/21), the PPN 006 Technical Standard, the Greenhouse Gas Protocol Corporate Accounting and Reporting Standard, and UK Government (DEFRA / DESNZ) 2025 Greenhouse Gas Conversion Factors.

5. Baseline Emissions Footprint (2025)

Emissions Source	CO ₂
------------------	-----------------

Scope 1	2.62
Scope 2 (location-based)	0.55
Scope 3 (selected categories)	9.80
Total Baseline Emissions	12.97

6. Current Reporting Year (2026)

For the 2026 reporting year, Scope 2 emissions are reported using an interim estimate of 0.55 CO₂ pending confirmation of landlord-provided electricity consumption data. This figure will be updated within six months of the financial year end.

7. Scope 3 – PPN 006 Minimum Category Statement

Category 4 (Upstream transportation and distribution): Not applicable – software and professional services only.

Category 5 (Waste generated in operations): Included.

Category 6 (Business travel): Included.

Category 7 (Employee commuting): Included.

Category 9 (Downstream transportation and distribution): Not applicable – no physical products distributed.

8. Emissions Reduction Measures

Replacement of a petrol company vehicle with an electric vehicle, avoiding approximately 2.62 CO₂ annually.

Reduced business travel through increased adoption of Microsoft Teams.

Full virtualisation of legacy servers and optimisation of cloud infrastructure.

9. Emissions Reduction Targets and Trajectory

Year	Target CO ₂	Reduction vs 2025
2025	12.97	Baseline
2026	11.0	-15%
2027	9.5	-27%
2028	8.0	-38%
2029	6.5	-50%
2030	5.0	-61%

10. Governance and Review

Carbon governance is overseen by the Board of Directors. The Carbon Reduction Plan is reviewed annually and updated within six months of the financial year end.

11. Approval and Publication
